ChiliProject - Feature # 1306: Parent Association after issue is created

Status:	Open	**Priority:**	Normal
Author:	Adithyan K	**Category:**	Issue tracking
Created:	2013-09-30	**Assignee:**	
Updated:	2013-09-30	**Due date:**	
Remote issue URL:			
Affected version:			
Description:	1. Any task can be selected and its parent can be either selected or changed		
	2. This can be done after selecting the parent issue also.		
	3. Now, any issue can be opened and "Add Subtask" can be clicked. In that, option may be given to choose an existing issue also
