ChiliProject - Task # 518: Document how to create a Journal using acts_as_journalized

Status:	Closed	**Priority:**	Normal
Author:	Eric Davis	**Category:**	Journals / History
Created:	2011-07-12	**Assignee:**	Eric Davis
Updated:	2011-07-29	**Due date:**	

Remote issue URL:	
Description:	acts_as_journalized needs some developer-level documentation on how to correctly create @Journals@ without dipping into the internal API.
	* highlight how @Issue#init_journal@ should not be used any longer (public method on the internal API)
	* describe how to set the journal attributes (@Issue#journal_user@ @Issue#journal_notes@ @Issue#extra_journal_attributes@)
	Recent updates to the questions plugin can be used.

History

2011-07-29 04:43 pm - Eric Davis

Started on the [[acts_as_journalized]] page. Not a release blocker (documentation) so closing for now.
